

Smartline

Smart wellbeing inspired
by the community

Part-funded by

European Union

European Regional
Development Fund

Enterprises

Smartline is working with Cornish enterprises to **develop** the next generation of smart technology to **improve wellbeing** in the homes of the future, based on the **needs** of the households and the data collected from Smartline participants.

Using home sensors and tablet computers Smartline is creating a digitally **connected community** amongst **300** households within Camberne, Pool, Redruth and Illogan.

Community

Research

Smartline **brings together** an interdisciplinary team of epidemiologists, economists, geographers, mathematicians and sociologists **exploring** the potential for business **innovation** to **improve health and wellbeing**.

The Smartline story
